Frontend Web Developer

React Js | Next Js | MobX | Framer Motion | Tailwind CSS

With over 2.5 years of frontend development experience, specializing in React.js, Next Js, and Tailwind CSS. My expertise lies in crafting pixel-perfect, responsive UIs from mockups and integrating REST APIs efficiently using Git/GitHub for collaboration. My love for Tailwind CSS enables me to create customized, high-performing UIs, making me an expert in frontend development.

WORK EXPERIENCE

Eko Infomatics Solutions- *Bengaluru, Karnataka*

March 2022 - PRESENT

React Js Developer

Developed and managed frontend tasks for in-house projects and work on client projects as a React developer, both remotely and at client locations.

- Spearheaded the development of a feedback analytics platform for a USA healthcare organization, resulting in a 35% performance boost.
